

Hinowa Goldlift 17.80XL IIIs

Designed with versatility in mind, the Hinowa Goldlift 17.80 XL is a compact and lightweight machine that is equally comfortable operating indoors or outside. Providing a working height of up to 17.1m and horizontal outreach of up to 8.1m, the Hinowa 17.80 is ideal for applications ranging from tree work to building facades to atriums. The Hinowa Goldlift 17.80 XL is available with a diesel engine combined with mains electric or 100% lithium battery-powered, for clean and quiet operation.
